ÖNKORMÁNYZATA

Municipality of Szombathely City with County Rights

Project LIFE GreenCoCoA

LETTER OF INTENT

On behalf of the Municipality of Szombathely City with County Rights, I express support for the initiative to prepare the project **Planning of urban greening for climate change adaptation based on co-creation and co-design approach**, acronym: **LIFE GreenCoCoA**, which will be submitted to the LIFE Program (Programme for the Environment and Climate Action, Type of Action - Climate Governance and Information) by the Institute for Ecology of Industrial Areas on behalf of all interested parties by September 17, 2024.

The goal of the LIFE GreenCoCoA project – to develop a practical approach to planning and implementing the concept of greening cities in the context of adaptation to climate change, rebuilding urban ecosystems and improving the quality and quantity of green spaces – is part of the activities that are extremely important to Municipality of Szombathely City with County Rights.

I confirm both the interest in the activities undertaken in the LIFE GreenCoCoA project and the results of this project, because the development of good practices and exchange of knowledge can significantly contribute to improving the planning process of urban greening.

The activities of the LIFE GreenCoCoA project provide an opportunity to cooperate with local government institutions, social partners, scientific experts, representatives of industry and other European institutions in order to create and implement a long-term plan for the development and maintenance of greenery and nature in cities.

I confirm the willingness of Municipality of Szombathely City with County Rights to cooperate with the LIFE GreenCoCoA Project Consortium as an **Associate Partner**.

On behalf of Municipality of Szombathely City with County Rights, I declare active involvement in initiatives undertaken as part of the platform dedicated to the transfer of knowledge and experience, bringing together representatives of cities, organizations, scientists and practitioners, as well as in promotional activities and activities related to the dissemination of project results.

Szombathely, 6..... September 2024
